Ok –  
I have attached 9 files to this email.  
They are zip files but renamed with the \*.txt extension. So after saving, then rename the file. Let me know if that works for you.

Each report contains the report information and any attachments that were submitted by Heritage. Let me know if you receive them ok.

EPA does not accept ZIP files. But do this. Ask the sender to change the zip file extension from xxx.zip to xxx.txt. Once you received the file, than you will have to rename the file back to xxx.zip format..

The state of ohio is trying to send me some zip files and they keep getting removed from the message. What's up with that?

Actually, I did attach them though they were attached as zip files, just like before. Do you have virus protection that strips attachments?

Perhaps I need to try resend one at a time? Let me know.

Here's a screen shot of what I sent.

Hi Elisa,

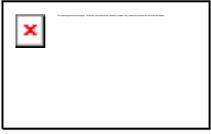

There were no reports attached with email (see below). Can you resubmit? Thanks.

Hello –

I've attached the reports submitted through Air Services dated 10/23/2015, 7/30/2015, 4/29/2015, 1/30/2015. I am not certain how far back you need these reports. I can provide additional reports upon request.

**Subject:** Heritage Thermal Services Reports

Hi Rochelle,  
I need the following reports pulled for Heritage Thermal Services in East Liverpool, Ohio.

I don't know the exact name of the report but it is the SO2 and NOX quarterly excess emission reports (EER) that are required to be submitted per their Title V permit.

They also submit MACT or NESHAP quarterly reports. We do not need those. We only need the SO2 and NOX EERs. We need these for the last 2 years.

Thanks so much.
